Chartwells School Dining Services at Robbinsville Schools

As a partner with Robbinsville Schools, Chartwells School Dining Services will support the schools with the implementation of the district Wellness Policy which tackles the challenge of the growing rate of obesity.

Our menu planning process integrates the goals of the Dietary Guidelines for Americans and My Pyramid while keeping in line with the US Department of Agriculture (USDA) Child Nutrition Program regulations, thereby providing nutritionally balanced meals meeting and exceeding the USDA menu requirements.

Chartwells' award winning Balanced Choices® program is a comprehensive wellness program that identifies healthier meals, snacks, and beverage choices. These choices will be identified by our Balanced Choices logo on menus and at points of service throughout the cafeterias.

All Balanced Choices meals meet federal nutrient standards for the National School Lunch Program. These meals promote portion control, fresh fruits and vegetables, and whole grains. Foods containing trans fats are eliminated and milk is hormone-free.

The district will meet all state and federal guidelines for snacks and beverages sold a la carte or in vending machines during the hours that school is in session. Foods of minimal nutritional value such as sodas, water ices, chewing gum and candies will not be served in accordance with restrictions set forth by the USDA.

Robbinsville Schools and Chartwells have made the commitment to nourish students in a way that will help them to succeed in their education and lay the foundation for a long healthy life.
